

Pavel Buzin

Quality Assurance Engineer (Manual & Automation),
Team Lead, Quality Analyst, Strategist and Manager

Experience

- 2023-05
present day
Stockholm, SE
Uppsala, SE

Middle+ / Lead QA Engineer (Manual/Automation)
Helicon Tech AB (Consultant for Stockholm Exergi) | permanent contract | hybrid
 - **Built up testing framework from scratch** & popularized a template for each team to use individually (**Intelligi Solutions has 5 teams with 50+ total services**).
 - **Started security-related group** focusing on fortifying platform security, collaborated with consultants from DNV Cyber. **Resulted in preventing 14 major security risks**.
 - **Integrated automation testing pipelines** with proper notifications to POs and lead developers on failures and connected them to Exergi's first TMS. **Improved total test coverage of whole platform from 20% to 80%**.
 - **Led internal services migration to k9s from QA perspective**, applying previously created test strategy for each service, **resulting in bug-less and on time migration**.
- 2022-04
2023-04
Odessa, UA
Uppsala, SE

Middle QA Engineer (Manual/Automation) & Project Manager
ITx (Outsource: Banuba, Capital.com, Crypto.com) | 1 year contract | remote
 - **Managed team of 10 other QA engineers working on several projects** conducting both mobile and web testing, **reporting directly to test lead on weekly basis**.
 - **Originated test automation in 2 projects**, together with tech leads and other AQAs.
 - **Pioneered own ideas on testing processes** and solutions according to customers' requirements.
- 2021-12
2022-02
Odessa, UA

Lead QA Engineer (for small Ukrainian start-up) & Project Manager
CGS (Product: Revizorro, Chilli designs) | 3 months' contract | remote
 - **Consulted team of 5 developers** acting as the only QA & PM for the whole team.
 - **Built test strategy from scratch together with CTO, CEO and tech lead**, covering crucial current testing needs and while focusing on potential further requirements.
 - White box tested all internal projects, **performed teams' code review together with CTO**, created own test documentation (strategy, plan, test cases, bug reports).
- 2021-04
2021-11,
Odessa, UA

Junior Game QA Engineer
Ubisoft (Games: Just Dance, Rider's Republic) | 6 months' contract | remote
 - **Discovered and reported 2 critical bugs**, that resulted in boosting projects' quality.
 - **Collaborated with senior QAs** on gameplay & UX optimization for several features.
- 2020-12
2021-03
Odessa, UA

Trainee Game QA Engineer
Gameloft Kharkiv (Game: Asphalt 8 (iOS, Android vers)) | 3 months' contract | remote
 - **Improved internal product quality by finding 3 critical bugs** preventing players from completing their in game achievements.
 - **Initiated internal team up with other testers to assure full test coverage**, leading in completing all testing criteria ahead of set deadline.
